

# Citizens' agenda

State election – version three – February 9, 2022

These are the issues we, the voters, want the next Member for Hammond to address after he or she is elected to state parliament in 2022:

1. **COVID-19:** We want South Australia to chart a course out of the pandemic, and for our leaders to address people's concerns about vaccines and activity restrictions.
2. **Infrastructure:** We want public transport services, roads and planning laws to keep pace with Murray Bridge's continued population growth.
3. **Health services:** We want adequate funding for local hospitals, paramedics and mental health services; and a review of the arrangement under which private GPs staff Murray Bridge's public hospital.
4. **Climate change:** We want action to be taken on climate change, and to protect the environment and the River Murray.
5. **Public safety:** We want Murray Bridge to be a safer place, with less crime, illicit drug use and domestic violence.
6. **Poverty:** We want secure jobs and affordable housing to be available to every member of our community.
7. **Corruption:** We want a transparent, accountable and united government; and for our elected representatives to stay loyal to their political affiliations.

This citizens' agenda is based on responses to a Murray Bridge News survey, and will continue to be updated. Have your say at [www.surveymonkey.com/r/3HBGX3M](https://www.surveymonkey.com/r/3HBGX3M).
