

# Citizens' agenda

Federal election – version two – May 11, 2022

These are the issues we, the voters, want the next Member for Barker to address after he or she is elected to federal parliament in 2022:

1. **Housing:** We want everyone in our communities to have a home they can call their own.
2. **Health:** We want properly funded, staffed and accessible health services in our communities, including more mental health services.
3. **Climate change:** We want action taken to slow down climate change, and clear plans for dealing with a changing climate.
4. **Aged care:** We want a higher standard of aged care, to the benefit of our elderly and the workers who care for them.
5. **COVID-19 response:** We want an end to the restrictions introduced during the pandemic.
6. **Public transport:** We want to be able to get to Adelaide and back more easily.
7. **Cost of living:** We want wages and government payments high enough, and fuel prices and other costs low enough, that we can make ends meet.

This citizens' agenda is based on responses to a Murray Bridge News survey, and will continue to be updated up until May 18, 2022. Have your say at [www.surveymonkey.com/r/federalCA2022](https://www.surveymonkey.com/r/federalCA2022).
